Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

In addition to my personal phone, my entire family uses the wireless phone to aid us in safety and emergency issues. We could not afford the upkeep of four phones if the increase is passed. Since last month when our high school was locked down due to a "gunman" on campus phones are now allowed in the school--even the district recognizes the importance of communication in this unstable age.

Help to keep us safe.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
